Vice Mayor Devereux,

I am contacting you to encourage you to support the resolution brought by Mass Against HP asking that Cambridge stop purchasing from HP due to their investments in and support of Israel and thus their oppression of the Palestinian people. I believe that all people should have the right to a home and homeland, this includes both Jewish and Palestinian peoples. As a citizen of Cambridge I ask you to help end the current system of oppression, discrimination and violence inflicted upon the Palestinian people by the Israeli government by divesting from any company that engages with or actively supports Israel.

Take the Pledge--Conserve Water this April

Mayor McGovern and I have joined the National Mayor's Challenge for Water Conservation. The challenge runs through April, and is a national campaign to see which communities can get the most residents to make online pledges to reduce their water use. This challenge encourages us to reduce and be more aware of the ways in which water use will affect our communities in the future, including encouraging more permeable spaces, diverting stormwater, and reducing runoff.
